Experience

Omise

Project Manager

March 2025 - Present (1 year 1 month)

- As Project Manager at Omise Pro business unit, I lead cross-functional delivery of fintech projects, managing sprint planning, backlog execution, and stakeholder alignment across product, engineering, clients and external partners.
- Lead multi-partner digital wallet program, managing parallel integrations of closed-loop and open-loop wallet solutions with regulatory compliance to scale wallet-as-a-service capabilities
- Delivered the Report Engine project plan, scoping \$300K annual opportunity to enhance merchant reporting capabilities
- Coordinated cross-functional teams on the CYBS REST API rollout for Thai banks, enabling major client migration to Cybersource that drove ~\$150K/month in savings
- Established structured Agile cadences, streamlined documentation, and reporting processes to provide clear visibility to internal teams and client stakeholders

Indorama Ventures PCL

Digital Project Manager

June 2020 - March 2025 (4 years 10 months)

Bangkok City, Thailand

- As Workday Functional PM, I oversee data integration of Workday's Adaptive Planning, managing the backlog, ensuring timely delivery, coordinating cross-

functional teams, and aligning scope with business requirements for smooth financial data integration and reporting

- Contributed to the solution design and data modeling for procurement analytics, enhancing data warehouse and master data management (supplier, spend category, payment terms) for improved efficiency and reliability. Developed a key data model that was instrumental in shaping discussions around solution design
- Initiated the COMA App in its discovery phase, a platform designed to simplify access to customer and product profitability data, creating UI mockups, defining the product concept, and consulting with a sales expert to align with business needs
- Developed user-centric Tableau dashboards, facilitating enhanced decision-making by tracking business performance and responding to unique user needs
- Managing a vendor partnership for supply chain analytics software, serving as the key liaison between business users and the vendor. Tasked with developing inventory management use cases and supporting feature enhancements to boost platform adoption and impact

FINNOMENA

Summer Intern

September 2018 - September 2018 (1 month)

- Working with the Investment Advisory team in data research for advising investment strategies to clients
- Extracted economic data from the Bloomberg Terminal using the Excel API for company presentations

IRPC Public Company Limited

Summer Intern

August 2018 - August 2018 (1 month)

Lat Phrao, Bangkok, Thailand

- Conducted market research for IRPC's future petrochemical products, tailored to the demands of the home decoration market for potential positioning of the products
- Analysed a competing country's export data to identify its target countries and presented to the team leader

Lancaster University

Vice President of Lancaster University Thai Society

October 2016 - June 2018 (1 year 9 months)

Lancaster, United Kingdom

- As vice president, I shouldered more responsibility in the Thai Society Committee. More responsibility means greater leadership
- Provided a platform and a voice for all the Thai students in Lancaster University
- Advertised Thai culture through events such as Thai Cultural Night
- Leadership, marketing and communication skills

Siam Balcony

Waiter

October 2016 - March 2018 (1 year 6 months)

Lancaster, United Kingdom

- Working part time up to 20 hours a week while studying
- Promote Thai culture by through serving Thai food as well as attentive to customers' service.
- Managed to solve problems when customers are in doubt or in conflict with the service.
- Multi-tasking as a service provider
- Dealing with customer relations and multi-tasking skills

Careers by Samaggi

Peer to Peer Advisor

September 2017 - February 2018 (6 months)

London, United Kingdom

- Leader of the Chemical Engineering Sector
- I oversee students with an interest in the chemical engineering field by sending out emails containing careers-related opportunities while offering CV checks as well

Thaioil Group

Summer Intern

August 2017 - September 2017 (2 months)

Chonburi, Thailand

- I held a key responsibility in crude oil analysis: Analysing each crude oil's price and refined product value, to determine which crude oil to procure to maximize the gross refining margin (GRM) for the refinery.
- Developed knowledge of the oil & gas industry, and the oil refinery industry including the refinery units of Thai Oil. Learned about the economics and the value drivers of the oil refinery.

- I participated in Thai Oil's internal planning meetings regarding its scheduled shutdowns, efficiency improvement initiatives, and bitumen capacity expansion.
- Analysis/problem-Solving skills, oil/gas knowledge and chemical engineering skills

Bangkok Bank

Intern

July 2017 - August 2017 (2 months)

- Attended the Student Internship Program (SIP) by Bangkok Bank
- Numerous lectures on investing, corporate social responsibility (CSR) and business insights
- Worked in two large groups (consisting of 25 people) in CSR and business projects.
- Came first in the business project, which was about a physical therapy centre to tackle office syndromes for office workers in central Bangkok.
- Duties for the project included: competitor analysis and business model canvas
- Teamworking and analysis skills

Samaggi North Region Group

General Executive Member

November 2016 - March 2017 (5 months)

- Worked alongside with members from 7 other Northern universities (such as Nottingham, Hull, Huddersfield, Sheffield, Manchester, Liverpool and Leeds)
- Organised a Sports Day event for all Thai Society members of the 8 Northern universities, resulting in 100 participants on the day.
- Teamwork and communication skills
